

**PML Grill Project Update**  
**1/8/19**

**Temporary Parking Lot Closure and access to the 2<sup>nd</sup> floor**

We have our permits in hand and our contractor has started preliminary demolition of fixtures and areas that will need to be removed from inside the building.

For safety and security, we are placing barriers and limiting access to the Grill parking area and building. The upper parking lot above the Grill will be closed during construction.

There are 110 other parking spaces available for our golfing members and guests. 24 are located at the lot adjacent to the 9<sup>th</sup> green. 4 parallel spaces are located on Mueller drive. 20 are located by the pickle ball center entrance. Another 20 are located above the pickle ball courts (golf parking along Mueller Drive). 14 are located in the upper golf parking lot (above the entrance to the 1<sup>st</sup> tee). And 28 (Not including the 2 ADA) spaces are located at the pool. Access to the Golf Pro Shop will be by way of the First Tee cart path.

There will be no access to the 2<sup>nd</sup> floor of the Country Club building or the stairs leading down, as fencing will be placed at the top of the 2 stair cases towards the front of the Grill. In addition there will be fencing at the bottom of the stairs leading to the bar entrance from the pro shop. There will be another fence at the walkway from the first tee to the bar.

Members and guests are asked to please avoid using the loading/delivery dock during construction. Again, these measures have been taken to limit access to authorized personnel only for safety and security of the job site.

In addition, we will be performing repair work to the Grill deck and there will be no access under the deck to the Golf Pro shop from this area.

We apologize for any inconvenience and appreciate the anticipated support and understanding as we work to create a new and improved facility for our members.

Attached are some photos of the preliminary demolition work.
