PMLA FIRE SAFETY STANDARDS AND HAZARD TREES

FIRE CONDITIONS have the potential to be extremely hazardous even in the winter.

- Tree Mortality
- Drought
- Late Season Precipitation

have intensified conditions and pose an even greater threat to our area. For that reason, we are assisting property owners through lot inspections and fire safety education.

We are checking lots for fire safety regulations as required by the State of California and for hazardous trees. If a hazard tree is threatening your property, please give us a call and report it.

Please refer to your fire safety mailer which was mailed in May for tips on how to be fire safe or go to our website for information at www.pinemountainlake.com or call (209) 962-1240.

Does PML have your correct Mailing Address?
