

PML Member Traffic Safety Notice – Temporary Impacts to PML Parking Areas during Solar shade structure installation

POSTED: July 19, 2022

The parking lot at the PML Administration Office will be temporarily closed for the remainder of the week. Areas of the Grill/Golf Course and Marina parking areas will also be fenced off for the remainder of the week and possibly a couple of days next week.

The contractor for our solar power project is working on drilling and installing solar shade parking panels in these locations.

At the Administration Office there is limited parking at the Main Gate Mail house and next to the Main Gate restroom. Members can conduct many normal Association business activities online or by telephone.

We apologize in advance for any inconvenience as we carry out this important project.
